## **DETAILED ACTION**

### ***ORIGINAL PRESENTATION COMMENTS***

1. Newly submitted claims 37 – 72 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

1.1 All previous iterations of claims 1 – 36 (Group I) are directed to demand based messaging (email) applications. Claims 1 – 36 (Group I) are classified in class 709, subclass 206.

1.2 Newly submitted claims 37 – 72 (Group II) are directed to a wireless client device that permits a user to toggle between a first application and a second application.

The newly submitted claims (Group II) are classified in class 715, subclass 718 (mode switching interface).

1.3 The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the

Art Unit: 2141

particulars of the subcombination as claimed because a wireless email device does not require toggling between two applications without losing content. The subcombination has separate utility such as toggling between two applications without losing content.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

2. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by **original presentation** for prosecution on the merits. Accordingly, claims 37 – 72 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

3. The reply filed on 3/14/05 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

Newly submitted claims 37 – 72 have been withdrawn from consideration, since they are directed to an entirely distinct invention than that of original claims 1 – 26. Claims 1 – 36 have been canceled. Accordingly, there are no claims in the present Application.

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this

Art Unit: 2141

notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
